

Iguana Ice Cream Sandwiches

From Meals.com

The Iguana is one of the largest lizards in the Americas growing up to 6 ½ feet. An iguana has strong jaws with razor sharp teeth and a long tail that can double their length. The tail can be used to fend off predators because it is sharp and is used as a whip. Like most lizards, their tail can be detached if necessary in a confrontation with a predator and will grow back with time.

Prep Time: 20 minutes

Ingredients:

- 1 pkg. of refrigerated chocolate chip cookie dough
- 2 cups of ice cream
- Semi-sweet chocolate chips or sprinkles (optional)

Directions:

1. Prepare cookies as suggested on the package. Allow time for cookies to cool completely.
2. Place a tablespoon of ice cream on flat side of 1 cookie; top with flat side of the second cookie to make sandwich.
3. Place semi-sweet chocolate chips or sprinkles on plate. Roll the sides of the sandwich in the semi-sweet chocolate chips or sprinkles.
4. Serve immediately or wrap tightly in plastic wrap and freeze.

You may add hot fudge to the top of the second cookie to add another layer of flavor, if you like!

Serves: 12 Sandwiches
