

Wildlife Trails

Because the animals at the zoo reside in naturalistic habitats, they are sometimes not immediately visible. They might be napping in tall grass or behind a tree. The zoo is open year 'round and the animals' activities vary depending on the season. Remember, winter is one of the best seasons to see our animals!

Please Respect the Animals

The animals in our zoo are wild and can be sensitive. You are a guest in their home, so please do not tap on the glass, throw anything into exhibits, cross barriers or make excessive noise.

Conservation in Action!

Green infrastructure is soaking up rain water all around the zoo:

Green roof on the Pachyderm Pavilion

Porous pavement in the courtyard and in the parking lot

Rain gardens at Primate Park and at the zoo entrance on Wilbur Ave.

Cisterns and rain barrels to reuse the rain throughout the zoo

Stormwater wetland at the waterfowl exhibits

Indoor Exhibits

- 1 USS Antiquities (Cave)*
- 2 Diversity of Birds
- 3 Adaptation of Animals: Nocturnal Animals
- 4 Social Building: Monkeys and More!

*Temporarily Closed

- First Aid
- AED
- Restrooms
